

The world's largest peer-reviewed veterinary clinical reference source

## What our customers say...

As a WSAVA Education Partner, Vetstream enables us to deliver on our goals of raising global standards of veterinary care through the provision of Vetlexicon's educational resources at preferential rates, and through supporting our member associations, which have such a vital role to play in developing the profession in

Siraya Chunekamrai - Hon Secretary of the World Small Animal Veterinary Association

We have seen real benefits for our staff and students with Vetlexicon's IP authenticated licence who value the quality of the content and the ease of use of the Vetlexicon site from anywhere on campus. It has changed students' whole approach to learning and is an important tool for their future clinical careers. Meanwhile clinical staff can also have free access allowing them to refer students to content on vetstream.com during their teaching or clinical

Kevin Morris - Managing Partner, Medivet

We trust Vetlexicon enough to use it as our primary veterinary information source for our team of several hundred vets and nurses. The information is clear, accessible with a click of a mouse and updated regularly by leaders in their field. Vetstream helps our staff to stay at the cutting edge of veterinary science.

Nick Short - Head of eLearning at the Royal Veterinary College, London

We are grateful to Vetstream for this Association Licence for the last five years. It has undoubtedly proved a very attractive SAVAB member benefit and our membership has grown significantly as a result.

He continued: Personally, I use Vetlexicon daily, both as a tool in practice and to provide clients with relevant information. I am impressed by the quality of the scientific information it contains and how easy it is to use.

Dr Bob Proesmans, President, SAVAB

## T Treat with Vetlexicon

### Quick and easy access to crucial clinical information.

Keeping up to date with the latest developments in veterinary care is crucial for any veterinarian in practice and we understand this.

Vetlexicon is the world's largest online clinical reference source and provides a series of comprehensive, peer-reviewed digital encyclopaedias, delivering instant and structured point of care information for the treatment of dogs,

cats, rabbits and horses, wherever and whenever you need it.

With the widest choice of evidence based information currently available, combined with over 600 owner factsheets across the services, you and your practice can be secure in the knowledge that you have the freedom to deliver the best clinical care to your clients and their pets.
